Prior to the meeting, we would appreciate your thoughts on the following subjects:

1. What examples have you seen regarding the importance of anonymity/technology in anti-bullying measures?
Hot debates at parents' meetings in schools and kindergardens
2. What best practices have you encountered in expanding children's knowledge about their rights or what bullying means?
Special teaching units offered by external experts, e.g. from oru
"Kinderschutzzentrum" (Prevention of all kinds of violence against children)
3. What programmes or policies have you identified that educate children and their parents in life skills, such as communication tools, empathy and more?
See 2.
4. What are some of the challenges that you believe an anti-bullying programme may encounter?
Shame, shyness, ignorance
5. What would be an indicator of success for an anti-bullying programme?
Children get empowered to resist bullying - they trust their parents and teachers
6. How anti-bullying programmes can be inclusive to the needs of all children and promote diversity?

Draft agenda

Step-by-step- programmes which pay respect to the different needs of the children (most important to support integration!!)

7. Is there anything that you have seen in other European anti-bullying programs that will provide a benefit to Live Without Bullying?
